

WESTPRO agglomerators

applications

Westpro's versatile AGGLOMERATORS are specially developed for a vast range of applications.

- Heap leach systems
- Pelletizing
- Balling
- Industrial minerals
- Chemical

components

1. Heavy Duty Drum

- Mild steel construction
- Reinforcement bands
- Drilled for removable rubber lining
- Stainless steel lining (optional)
- Scraper system for decaking inside drum (optional)

2. Internal Rubber Lining

- Designed to prohibit cake buildup
- Protects drum wear
- Removable

3. Riding Rings

- Forged rings
- Machined for precision
- Wedge system alignment
- Durable

4. Trunnion Wheels

- Forged
- Heat treated
- Heavy-duty pillow block bearings
- Adjustable for drum alignment

advantages

- Mild steel shell with rubber lining
- Split sprocket & chain drive
- Drive sprocket
- Parallel gear reducer
- Hardened steel tires & trunnions
- Utilized drive base & thrust rollers
- Structural steel support frame
- Discharge chute and electric motor

5. Chain / Sprocket or Gear Drive

- Heavy-duty chain
- 2-piece sprocket
- Optional spur gear and pinion
- Guard with inspection hatch

6. Reduction Drive

- Heavy-duty reduction unit
- Adjustable base plate for alignment
- TEFC motor

7. Discharge Chute

- Mild steel construction
- Open or with inspection door
- Sloped bottom discharge
- Ventilation connection

8. Modular Frame (optional)

- Steel construction
- Customized for application
- Modular or skid type
- Boltable
- Breaks down for easy transportation
- (Also available mounted on portable chassis)

8' Diameter x 30' Long Agglomerator

Heavy Duty Drum & Riding Ring Construction

Modular Frame for Quick Installation

3' Diameter x 10' Long Agglomerator
